

**CRESCENT CITY HARBOR
OPERATIONS AND MAINTENANCE**

PROJECT LOCATION AND DESCRIPTION: Project is located on the northern coast of California, about 350 miles north of San Francisco. Crescent City Harbor is a shallow-draft harbor of refuge, supporting a Coast Guard search and rescue station, commercial and sport fishing, and recreational boating. The operations and maintenance schedule provides for annual inspection and periodic repair of the Outer and Inner breakwaters, as well as 5-year cycle maintenance dredging of the Entrance Channel to -20 feet Mean Lower Low Water (MLLW), and the Inner Harbor Basin Channel to -15 feet MLLW.

TOTAL FUNDING:

TOTAL COST:	\$ N/A
FEDERAL COST:	\$ N/A
NON-FEDERAL COST:	\$ N/A

TOTAL FEDERAL COST FY05	:	\$ 467,000
FISCAL YEAR 2006 BUDGET:		\$ 0
COST TO COMPLETE:		\$ N/A

FY 05 ACCOMPLISHMENTS: FY05 funds will be used to finalize Dredged Material Management Plan.

ISSUES AND OTHER INFORMATION: A preliminary Dredged Material Management Plan (DMMP) study has been completed which supports ocean disposal as an economically justified, long-term solution for maintenance dredging of the project. The DMMP effort includes coordination with the State of Oregon Environmental Agencies, and EPA region 10 for use of an ocean disposal site off the Chetco River. The local sponsor, the Crescent City Harbor District, is responsible for providing an adequate upland/beach disposal site.

Lack of funds for FY06 means there will be no money to carry out the annual inspection. Ramifications are unknown, but could be considerable.

CONGRESSIONAL INTEREST: 1st District, Rep. Mike Thompson; 6th District, Rep. Lynn Woolsey

POINTS OF CONTACT: LTC Philip T. Feir (415) 977-8500 and Deputy District Engineer for Civil Works, Arijs Rakstins (415) 977-8702
